

The Goalsquare® Session Planner is an easy-to-use software for goalkeeper coaches on whatever level.

This software allows you to easily plan your training sessions within a few minutes. Simply search & select from the large archive of practices or create your own practices or include your already existing practices.

The Goalsquare Session Planner "PRO" allows coaches a professional management of their goalkeepers and training practices, as well as a complete planning of their training sessions.

Professional features like the drawing module to create and draw own exercises, ready to easy implement in the session planning, the management of training presences and statistics and many more easy to use functions make our software an indispensable tool for every coach. And this not only for goalkeeper coaches, but also for football (soccer) coaches and others.

The key advantages of our software are:

- it is a lifetime license that will never end, no monthly or annual fee will be required;
- it is the only specific and complete solution for GK coaches;
- it can be used in 6 (and more upcoming) languages, selectable at any time;
- it can also be used by football (soccer) and other coaches, due to it's an open structure;
- it is very easy to use, so that coaches of all ages and levels can work with it;
- it is supported by a professional support team, reachable at almost any time;
- it will further continuously be developed, also taking care of user suggestions;
- it will be updated for FREE in a regular way!

Features of the BASIC version:

- easy planning of goalkeeper training sessions;
- rely on an archive of 260 exercises with drawing & detailed descriptions;
- add exercises to and select from favorites and waitlists;
- many search options to find your desired exercises to take on the training session;
- watch short video clips for most of the drills;
- get many variations for most of the basic drills;
- add your own comments to each exercise;
- print your session, send it by email, save it as PDF;
- select and print from included ready-to-use trainings sessions;
- create & save your own exercises and include them in your session plan.

Goalkeeper database

- store personal, mental and medical data for each of your keepers;
- print personal data sheets of your keepers;

Forms center

- use pre-designed forms for your training sessions and keeper evaluations;
- re-use previous planned training sessions.

All the features & functions from BASIC version are also available in the PRO version.

Additional features in the PRO version:

- Manage all attendances of your (group of) goalkeepers at your sessions;
- Statistics and reports of all training attendances for each keeper or group of keepers;
- Performance analysis for each keeper and training session (freely define 9 different performance topics);
- Listings of all keepers, resp. of groups of keepers;
- Report of all training sessions of a group and season;
- 5 different waitlists available;
- Assign groups to your keepers;
- The forms center contains several additional forms;
- Browse through already executed training sessions;
- Import text of own practices from Word documents;
- Goalsquare DRAW - module that allows drawing of your own practices;
- Goalsquare CUT - cutting exercises from any document;
- Goalsquare SideBar - Access many (new) functions directly in the main menu;
- Personalize your Session Planner (own background images and alternative menu icons, include your club- or academy logo on all reports & session sheets and more);
- Show your club- or academy logo in the sidebar;
- Own exercises database – store your own drills and add keywords / search words;
- Coaches database with individual login and individual settings;
- Tactical board feature with print ability;
- Alternative session plan layout selectable;
- Cutting function in the session planning (cut only the needed section from exercises)
- Games database – store all games of a goalkeeper and enter games data / goalkeeper behavior, print reports and many statistics of the games;
- Many more features and additional functions.

Additional Drills Packs

Extend your exercises database with the Goalsquare Drills Packs. With Drills Pack #1, the archive will contain 430 exercises! More Drills Packs will appear in the future.

The Goalsquare Session Planner is available online for download installation. It runs Microsoft Windows systems. There is no Mac version available. The license is valid forever. There is no monthly or yearly fee to pay!
